

It Matters to Me

Words and music Chris Symons and Jenny Bailey

What does it matter - if we fail to see?
The little things dropped by you and me
Carried on the tide - far out to sea
What does it matter?
What does it matter?

What does it matter - if we bring down a tree?
Been standing there - for centuries
Giving us life – and air to breathe
What does it matter?
What does it matter?

And if everyone else thought the same?
And their only concern was profit or gain, profit or gain.

Chorus

O -----H, it matters to me
O-----H, it's happening, can't you see
O-----H, come together, all as one
Make a plan, get it done
Save the world for you and me, before it's gone.

And as the fires burn, and heats the Earth
The clouds they form, bringing storms
Politicians talk, and talk some more
But Mother Earth is keeping score

And the fuel we burn, it heats the Earth
Yet we ask for more, no matter the cost
Our thirst for wealth, means the world has lost
Unless we change our ways, we're done!

Instrumental

It matters to me, that life should be free
Turn the tide and protect our seas
Re-wild our lands, so the Earth can breathe
It matters to you, and it matters to me, can't you see?

Chorus

O -----H, it matters to me
O-----H, it's happening, can't you see
O-----H, Come together, all as one
Make a plan, get it done
Save the world for you and me, before it's gone.

Repeat Chorus..
