Hi Vicky,

We've received December's Council Tax count for Chilmington. This confirms that there are currently 320 properties occupied, plus 50 properties that are complete for council tax purposes but not yet occupied. These numbers cover the Hodson, Jarvis and BDW parcels. None of the properties on the Man Group parcel are complete.

709 properties can be occupied before the requirement to address nutrient neutrality applies.

Regards  
Faye
