Dear Alec,

Thank you for the amended application form. The amended form is now uploaded onto the public access system and supersedes the original form.

In response to your query in your previous e-mail about consultation, I can confirm that I do not think it necessary to re-consult on the amended form.

Regards
Faye

Dear Faye,

Further to your email, please find attached, as requested, an amended application form. This confirms that all matters are to be reserved except for access. To clarify, the planning submission includes details for the approval of site access only.

To avoid confusion I have not made any other alterations other than to ensure the relevant boxes are ticked to confirm which matters are to be approved as part of this application.

Kind regards,
Alec
